

Application:

Model	T204E		
PrintHead	DX5 -Crystal Micro Piezo electric printhead		
Maxmum Print Width	1880mm(74“)		
Printing Resolution	360×360 360×720 360×1080 720×720 720×1080 1440×1440(dpi)		
Print Speed	4PASS	15m ² /hr	
	6PASS	12m ² /hr	
	8PASS	10m ² /hr	
	16PASS	6m ² /hr	
Ink	Type	Sublimation ink	Eco-solvent ink
	Color	4 colors(K,C,M,Y)	
	Capacity	440ml of each ink cartridge	
	ink Supply System	Block brake type of ink supply system	
Media	Type	PP,vinyl sheet indoor,drawing, paper canvas,vinyl,reflective material	
special function	Printhead Height	2-3mm Above Media Adjustable	
	Auto Cleaning System	Anti-clogged Flash Function & Moisturing System	
	Auto take up system	40kg heavy type take-up system	
PIP software	Maintop,Photoprint		
Package dimension	L2900mm×W970mm×700mm		

DESCRIPTION:

1.HIGH RESOLUTION GUIDE RAIL:

adopte imported famous linear with long service life.it's very stable when it's moving which effectively reduce the noise of printing.

2.XIBS INK SUPPLY SYSTEM

Adopt Japan classic design,the positive pressure more can effectively resolve the ink block as a result of significant changes of temperature and humidity because of distinct seasonal climate.

3.HIGH-TECH PRINTING PLATFORM

It's manufactured by imported equipment The advanced and reasonable structure can guarantee the height error within 0.05mm.

4.AUTO MOISTURE AND CLEANING SYSTEM

Cleaning printhead directly and avoid ink waste so to save running cost and improve working efficiency.

5.CUSTOMIZE SERVO MOTOR

The servo motor is customized according to machine load and structure.With stable quality and long service life.

6.EMBEDDED CONTROL MODE

Adopt most advanced embedded control system with intelligent drying adsorption and computation function. The control mode realize the function of sectional type of air draft regulation,pre/in/post temperature control,print parametear adjustment, and work independently without computer. Hence the operation mode is more easy and efficient.

7.Dx5 PRINTING TECHNOLOGY

Dx5 printhead have most advanced print control mode,The single printhead can reach t0 25.4mm of print width

T204E SYSTEM
